- 4. Click New button, a popup will show to confirm click Generate.
- Then, a popup containing Client ID and Secret will show. Secret will only be shown ONCE. ****If you forgot you click the Eraser icon button in action column to generate a new secret.
- 6. Save the Client ID and Secret. It will be used for your WHMCS module configuration.
- 7. Extract mci-whmcs-registrar-module-main.zip into [WHMCSROOT]/modules/registrars/ directory. Make sure mediacloudindonesia.php is located

in [WHMCSROOT]/modules/registrars/mediacloudindonesia/mediacloudindonesia.php directory too

8. Login to WHMCS admin page and then go to Setup -> Products/Service -> Domain Registrars menu.
